December 21-22

Young Professionals Symposium - International Workshop for Future Antennas

Organising Committee

Honorary Chairs

Jay Guo, University of Technology Sydney
Amin Abbosh, The University of Queensland

General Chairs

Shu-Lin Chen, University of Technology Sydney
Stephanie Smith, CSIRO
Xue Jun Li, Auckland University of Technology

TPC Chairs

Withawat
Withayachumnankul, Adelaide University
Ying Liu, IEEE AP-S AdCom (Region 10)
Can Ding, University of Technology Sydney
Jammy Chen, Flinders University

YP Committee Chairs

Lizhao Song, University of Technology Sydney
Hadi Mousavi, The University of Queensland
Wei Lin, The Hong Kong Polytechnic University
Gangil Byun, UNIST

International Advisory Board

C.J. Reddy, IEEE AP-S President
Konstantina Nikita, NTUA
Hang Wong, City University of Hong Kong
Kin Fai Tong, Hong Kong Metropolitan University
Wonbin Hong, POSTECH
Oscar Quevedo-Teruel, KTH
Qammer Abbasi, IEEE AP-S YP Chair
Peiyuan Qin, University of Technology Sydney
Takashi Tomura, Institution of Science Tokyo

Local Organising Chairs

Ming Li, University of Technology Sydney
Fanchao Zeng, University of Technology Sydney

Coordination Committee Chairs

Mina Feizi, University of Technology Sydney
Xingyu Cheng, University of Technology Sydney

CALL FOR PAPERS

The Young Professionals Symposium - International Workshop for Future Antennas (YPS-IWFA) 2026 will be held by University of Technology Sydney (UTS) and Auckland University of Technology (AUT), on 17-18 December in Sydney, Australia, and 21-22 December in Auckland, New Zealand. The symposium provides a premier international forum for research, collaboration, and innovation in antennas, propagation, metasurfaces, and emerging electromagnetic technologies.

Topics of Interest

- Antenna theory, design, and advanced beamforming systems
- Reconfigurable intelligent surfaces and reflectarrays
- Electromagnetic wave propagation and channel modelling
- mmWave, sub-THz, and 6G communication technologies
- AI-driven electromagnetic design and optimisation
- Measurement systems, calibration, and experimental validation
- Emerging antenna applications, including microwave imaging, biomedical sensing, and wireless healthcare systems.

Programme Highlights

- International Symposium across Australia & New Zealand
- Young Professionals Growth & Development
- Global Research Collaboration & Networking
- Best Young Professional & Student Paper Awards

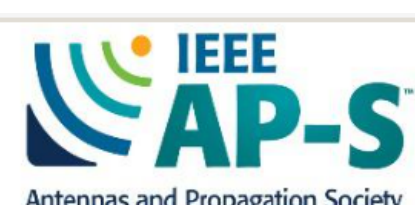

Important Dates

Paper Submission Deadline: **September 15, 2026**

Notification of Acceptance: **October 15, 2026**

Early-bird registration: **November 1, 2026**
